

ATC:

Thanks to Tom Newton for all of his extra help to get my job started. I believe he goes beyond the "Call of Duty" to work honestly with a customer and overcome any obstacles to getting the job done.

Thanks also to my installation crew of Vern and Doug - A couple of hard-working guys with a hot job. They do good work and have a standard to "Do it the Right Way" and then clean up the area after the job is done.

ATC is fortunate to have such fine peoples representing the company on the customer's job.

Thanks again,

Art Olt
