Dear Jim:

Though folks first noticed that the "blue shutters" are gone, the real improvement to our house is the insulation. The wisest decision we made was to go with Abel Builders. The second? To use your firm (as recommended by Mike), to blow in the Icynene Spray Foam. Wow!

What a difference. This home is a difficult one. Stone. 1933. Four stories. And yet, that foam has reduced our heating and cooling bills considerably. Probably paying for itself in a little over a year's time. The second damping is remarkable and best yet? Your people who put it in. Really great guys, every one of them who have done our attic and then returned to do the bath.

We will have many more uses for your services in the future and we are looking forward to every one. Please feel free to have anyone call us for a reference or share this with them. We are most pleased.

Sincerely,

Lynette & Joel Steger
