ATC Insulators

Yesterday your installers applied Icynene foam under my new sunroom. Doug and Vernon did an excellent job. I am extremely happy with their work. ³ might add they were very friendly, provided a lot of product knowledge and left no mess what so ever.

I chose ATC for this job because of a certain young lady who worked for you last summer. Her name is Katie Giles. She was at my house recently and I was discussing insulation with my sons and she suggested your company, which I am very thankful for. You don't see many young people helping other people these days. I thought it was very kind of her to offer the suggestion (for your benefit and mine).

Thanks

Richard Rohman
