ATC Insulators
367 Old Germantown Road
Metamora, IL 61548
ATTN: Jim McGath

Dear Jim:

I want to thank you and your men for a job well done. The insulating of my attic duct work and knee walls with Icynene Spray Foam plus 8" of Fibered Cellulose blown over the existing insulation has made a tremendous difference. I immediately felt the difference in the house and have noticed the energy consumption drop in my utility bills.

Steve Aupperle
